To whom it may concern:

I am trying to get an extension on date for filing of a 474. The reason for this is that the wrong spin number was entered in by a third party. It was found in out in May of 2017. It was then brought to the attention of the submitter that they needed to get the spin number changed to the correct service provider. The process was started in June of 2017. It was still not processed thru in November 2017. We were paid by the school, and I thought that they were doing all of the paperwork to get the funding back. In March 2018, we were asked if we had submitted the paperwork as the school was looking for reimbursement. I sent thru the 474 form for the payment and was declined because it was invoiced after the FCC Extension date.

I am asking for an extension so that I can submit the 474 form to get reimbursement back to the school

The 471 applicant is Waupun School District.
FCC Form 471 application Number 161004916
Funding Request number is 1699009201
Funding Year 2016
Name of the School is Waupun Area School District
